EXPERIENCE THE **GOLD STANDARD** ADVANTAGE

Eliminate added costs, time and uncertainty with the most trusted, gold-standard closure bag utilized around the world. Whirl-Pak® bags are intentionally designed with one-of-a-kind features that ensure a leak-proof, sterilized, easy-to-use container for results you can trust – whirl, twirl or fold, it's not Whirl-Pak's premium quality if it doesn't have Whirl-Pak's new trademarked yellow tape.

- 1** POST-MANUFACTURING STERILIZATION
 - increased sample integrity
 - save time with a sterilized container for your samples
 - +1 Sterilization ensures sterilization with access to sterility documentation
- 2** PUNCTURE-PROOF CLOSURE TABS
 - tape extends beyond wire to eliminate sharp ends and provide a sturdy grip
 - wire tabs hold the top open for easy access to add to or remove sample
 - create a pour spout by pinching the wire for easy dispensing
 - worry-free, no-leak closure for sample integrity
- 3** OPENING PULL TABS
 - for easy opening
 - non-slip textured Tyvek®
 - our pull tabs are designed to keep hands away from the opening of the bag to retain the sterilized state of the inner bag, assuring samples are free of contamination.
 - when comparing to other closure bags, can you ensure the design allows for a aseptic handling?
- 4** CONVENIENT WRITE-ON STRIP
 - make labelling quick and EASY with pen or marker, can your current container say that?
 - clear sample identification for organization & traceability
- 5** BLENDED, VIRGIN POLYETHYLENE FILM
 - you can feel the difference!
 - exceptional clarity
 - superior strength
 - FDA approved for food contact
- 6** CONTINUOUS PERIMETER SEAL
 - maximum protection against leaks
 - as the ONLY closure bag on the market with welded seams, we are the most comparable to a rigid plastic container

WHIRL

YOUR WAY TO A SECURE CLOSURE

Label your sample.

To open, tear off the top along the perforation.

Use the Tyvek® pull tabs to open without contamination.

Place sample in the bag.

Hold bag by the tabs and whirl 3 to 4 times to make a seal.

Bring the two wire ends together and twist tie them.

Fold down top of bag.

Bend wires in to seal.

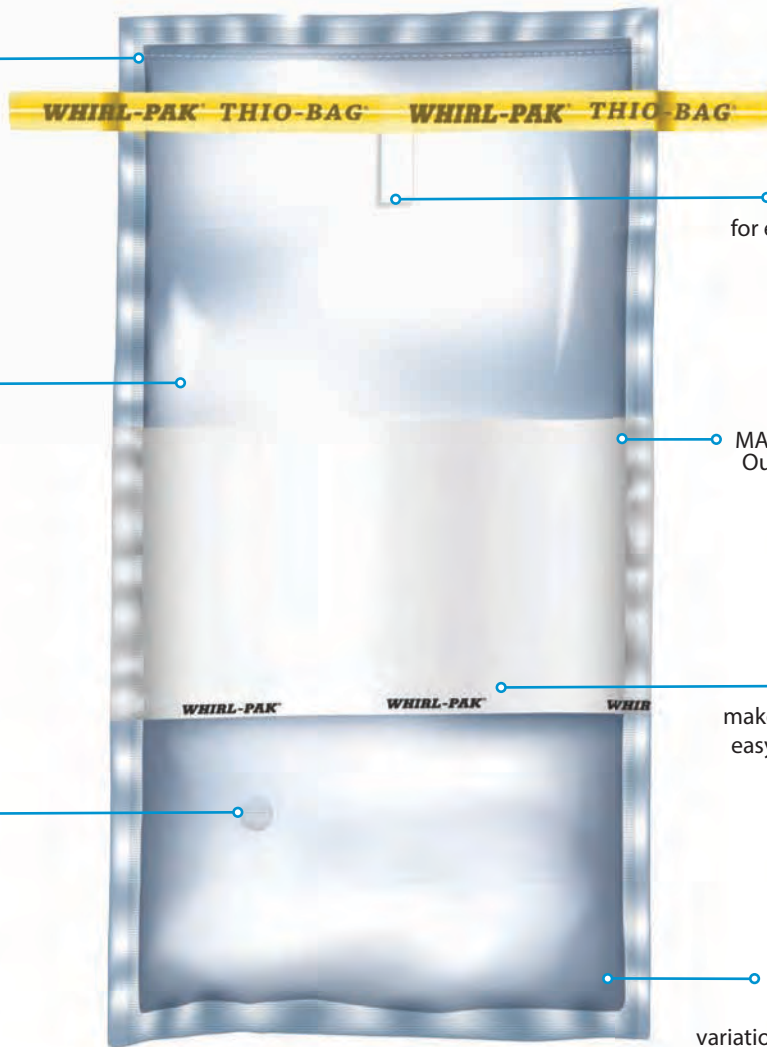

THIO-BAG

EPA approved for more efficient microbiological water sampling and analysis.

Thio-Bags are specifically designed with a thiosulfate tablet already in the bag for sampling chlorinated water from municipalities, swimming pools, waste water, and other areas to test for fecal coliforms or other bacteria. Available in both a flat and stand-up bag.

STERILIZED FOR RESULTS YOU CAN TRUST.
Our bags go through post-manufacturing sterilization, known as +1 Sterilization.

STAND-UP BAG

Self-standing bag works like a bottle without the cost and storage constraints.

The Stand-Up bags have a gusseted bottom that unfolds when a sample is placed inside, allowing the bag to stand upright. By replacing bottles with Whirl-Pak Stand-Up bags you will save on product and disposal costs, have a guaranteed sterilized container, ensure for a safe and clean lab with shatterproof material, and use only a fraction of the storage and disposal space.

FILTER BAG

Easy transportation of samples from collection site to the lab and incubation.

Our Full Page Filter Bags are perfect for collecting, blending and pipetting. The filter layer inside the bag is sealed into the sides and bottom perimeter allowing liquids of a blended sample to transfer through the 330 micron filter, while solids remain separate and contained. Efficient and safe sampling.

WHIRL-PAK® FILTER BAG WHIRL-PAK®

STERILIZED FOR RESULTS YOU CAN TRUST. Our bags go through post-manufacturing sterilization, known as +1 Sterilization.

OPENING PULL TABS for easy, aseptic handling.

SLUDGE JUDGE SERIES

Take accurate readings of settleable solids of 5% or less in a variety of liquids.

Find the right fit for your needs in our Sludge Judge series. Whether you need the complete unit or a replacement part, we have the size you need for a cost-and time-efficient solution. The Sludge Judge and Sludge Judge II differ in diameter. SJ II offers an additional 1/4", and while the Sludge Judge Ultra is comparable in size to the Sludge Judge, it is differentiated by the polycarbonate treatment. Sludge Judge Ultra is treated with an ultraviolet stabilizer to help reduce deterioration from the sun's harmful rays. For Individual components visit www.whirl-pak.com

SJ UNIT

SJ ULTRA

SJ II UNIT

SWING SAMPLER

Intentionally designed for those collecting samples from a horizontal flowing stream.

Are you in need of an easy-to-use, time saving sample collection tool for horizontal flowing streams such as a sewer? Then the Swing Sampler is specially designed for you! The end of the sampler swings allowing collection from different angles, including 90° complete unit or a replacement part, we have the size you need for a cost-and time-efficient solution.

SIZE

6-12 FT.

8-24 FT.

SLUDGE NABBER

Make sample collection of liquids fast and easy.

The Sludge Nabber is an adjustable aluminum pole that extends from 1.22 to 1.99 m (4-6 1/2 ft.). Collection containers range from 250-1,000mL and can be placed in the base and held in place with an adjustable locking ring.

STORAGE RACKS

Easy transportation of samples from collection site to the lab and incubation.

Made of 10-and 12-gauge steel fused together for strong joints and straight lines. Racks are finished with an electro-statically applied powder coating for a durable and easy-to-clean finish which will stand up to many laboratory materials.

POURPOD™

Simple, seamless sample handling in the lab.

Our PourPod™ solution makes sample handling a breeze. Lab work is seamless with our sturdy sample-pouring accessory. Simply insert a full Whirl-Pak sample bag, and easily pour, measure and test the same way you would with bottles!

SMARTER SUSTAINABILITY

MEET YOUR NET ZERO GOALS

When compared to rigid plastic containers, studies have shown that Whirl-Pak® bags deliver a more cost-effective alternative to non-flexible containers. But that's not all; Whirl-Pak® bags also require fewer materials and less energy and water to produce, thus leaving a lower overall impact on the environment. With 65 years of proven reliability, our high-quality solutions are perfect for your sampling and testing needs.

REDUCE WASTE + ENVIRONMENTAL IMPACT

LESS MATERIAL

Whirl-Pak®'s Closure bags use 90% less material than rigid containers.

LESS WATER

The manufacturing process of Whirl-Pak® closure bags use 67% less water than rigid containers.

LESS EMISSIONS

Throughout its life-cycle, a Whirl-Pak® bag generates 91% less emissions. material than rigid containers.

REDUCE SPEND + HANDS-ON TIME

SPACE/STORAGE

Flexible storage containers, such as Whirl-Pak® bags, are more efficient in all space and storage scenarios.

TRANSPORTATION

Lower shipping costs and overall environmental impact when switching from bottles to Whirl-Pak® bags.

DISPOSAL

Save on disposal costs and service frequencies while increasing efficiency in the disposal process.

*A study was performed to identify the sustainability benefits when comparing one-time-use rigid containers to Whirl-Pak®'s Thio-Bags Rigid containers used in this comparison included PP, PET and HDPE Bottles.

PATHWAY TO SUCCESS

COST EFFECTIVE | IMPROVED USER EXPERIENCE | WASTE REDUCTION | DECREASED RISK

Make the switch!

Are you ready to make the switch from non-flexible containers to Whirl-Pak closure bags, but you're not quite sure where to start? At Whirl-Pak we can help you understand the important cost-reduction benefits for both your team and your facility in equipment, media, consumables, and more. Plus, we'll help you reduce hands-on time and reduce plastic waste - all while maintaining regulatory requirements.

FREQUENTLY ASKED QUESTIONS

Q: Is there a significant learning curve in the field or in the lab?

A: Multinational brands have reported a one-week learning curve.

Q: Are Whirl-Pak closure bags available through international distribution channels?

A: Whirl-Pak is available world-wide through best-in-class partners.

Q: Will this change require significant investments?

A: Multinational brands that have rolled out bottle-to-bag conversion have only captured savings.

Q: Do Whirl-Pak bags meet federal regulations?

A: Whirl-Pak bags are R-Nase, D-Nase, Pyrogen, BPH free and comply with FDA, USDA, HACCP, and EPA.

FROM IDEATION TO IMPLEMENTATION

We'll guide you in the following areas while offering continued implementation support and product expertise.

- Streamline raw material and finished product testing
- Product documentation and certifications
- Sustainability benefits - reduction of waste
- Reducing costs (equipment, media, consumables, hands-on time)
- Disposal time and costs savings
- Maintaining regulatory requirements
- Q&A product application session
- User training and solutions
- Liquid-locking closure training
- Our team is available to provide further insights on value-added product application opportunities for seamless implementation of Whirl-Pak products throughout your collection and analysis process

**MEET
YOUR
NET
ZERO
GOALS**

SUCCESSFUL ROLL-OUT

You recognize the cost, waste, and time-saving opportunities of making the switch from bottles to bags, and you have the data to prove it. But now what?

- 1** DEFINE: MAP OUT RAW MATERIAL AND FINISHED PRODUCT TESTING
 - Put together a list of bottles or other bag sizes currently used in your process. We'll provide a comparable list of products to streamline SKUs and suppliers utilized in your facility.
 - Where a bottle was once used - is there a stability concern on the scale or in the incubator? We can recommend solutions.
- 2** INFORM: NOTIFY PURCHASING AND SERVICES OF CHANGE
 - Provide a Whirl-Pak product list to your purchasing agent. Be sure no substitutes are made as the Whirl-Pak brand is necessary for risk aversion.
 - Notify disposal services of changes - frequency and volume will be reduced.
- 3** IDEATE AND EMPATHIZE: MEET WITH TEAMS TO CAPTURE THEIR CONCERNS
 - Meet with those collecting and analyzing samples to address questions or concerns.
 - Potential questions might include: Will this take more time? How does this impact other portions of my job? We've always done it this way, why change now?
 - Our team is available to provide resources and training, so your team understands the user-friendly benefits of Whirl-Pak bags and how this will help make their jobs safer and more efficient.
- 4** TEST: SET UP PRODUCT AND TESTING STATIONS
 - Make yourself available for one week to troubleshoot and challenges encountered in the cut-over stage.
 - After launch week, users are comfortable with the change and embrace the positive impacts beyond those mapped out for business efficiencies.

ABOUT OUR COMPANY

MAKING THE WORLD SAFER, HEALTHIER, AND MORE PRODUCTIVE

It all began with milk. In the early 1950s, milk was transported in bulk tanks after being collected from dairy farms along a specific route. With each farm's product becoming combined in one blend, farmers soon began to voice concerns over the potential risk for a reduction in overall milk quality. Taking up the issue in 1954, Harold Barnum, a leading authority in the milk sanitation industry, developed a process called the "Universal Sampling Procedure." With this method, a milk truck driver could collect milk samples from each farm and test it prior to transport in order to ensure its quality throughout the process. Because of the effectiveness of this testing, Barnum soon saw a need for mass production of leak-proof closure bags, and Whirl-Pak was officially established in 1959. Because Barnum transformed the dairy industry, he began to explore quality assurance testing and sampling in other industries, such as food, beverage, and water. Today we live in a safer, healthier world thanks to Barnum's vision, and our business continues to thrive because of his tireless work.

At Whirl-Pak, Filtration Group we continue to strive for excellence with secure sampling bags that ensure the safety of consumers while improving efficiencies in processing facilities and laboratories. As quality management policies and regulation requirements change, the health and safety of the consumer depends on the accuracy of your test results. Whirl-Pak can help you deliver the best possible outcome each and every time.

keeping liquid samples safe
SINCE 1959

As a part of Filtration Group, we will continue to deliver solutions that best fit the needs of our customers and improve their processes. It is our mission to make the world safer, healthier, and more productive.
